

SLAT ADMISSION GUIDELINES

Sample reference document for testing a Retrieval-Augmented Generation (RAG) admissions chatbot

DOCUMENT STATUS: ILLUSTRATIVE TEST MATERIAL

This document is not issued, approved, or endorsed by Symbiosis International (Deemed University), Symbiosis Law Admission Test (SLAT), or any Symbiosis Law School. It combines selected information from publicly available SLAT pages with a practical sample checklist. Where a requirement is not explicitly confirmed by the cited official source, this document says so and directs applicants to verify the current admission notice.

Intended use

Use this PDF to test whether an admissions chatbot can retrieve category-specific document requirements, distinguish official-source information from illustrative guidance, answer FAQs, and safely defer when exact rules are not established by the source.

Reference cycle: SLAT 2027 public website information consulted on 4 October 2026. Dates and rules can change by cycle; always use the live official notification for an actual application.

Prepared as a synthetic knowledge-base sample • Version 1.0 • 4 October 2026

1. Purpose and scope

The Symbiosis Law Admission Test (SLAT) is an entrance test used for admission to undergraduate law programmes at participating Symbiosis Law Schools. Admission is governed by the university's published eligibility, selection, reservation, programme-registration, and document-verification rules. The official SLAT website states that admission is merit-based and warns candidates against agents or individuals promising guaranteed admission or demanding capitation fees.

Important: This sample does not replace the current SLAT information bulletin, programme page, offer letter, or instructions issued by the specific Symbiosis Law School. Programme availability, category applicability, certificate formats, deadlines, and selection stages may differ by campus and admission year.

2. Application and admission workflow

The official SLAT registration page describes online registration, programme selection and payment, and use of a valid, unique email address and mobile number throughout the admission process. Candidates are responsible for entering accurate information matching their credentials. The page also instructs candidates to use their SLAT login and raise a query ticket for questions.

1. Review the current SLAT eligibility criteria and the requirements for each intended law-school programme.
2. Register through the official SLAT website and provide accurate personal, contact, and academic details.
3. Select the programme(s) and campus(es) for which you intend to apply. Check whether programme-wise registration and payment are required.
4. Upload or submit the documents requested by the portal. Category claims require supporting evidence and remain subject to verification.
5. Complete the applicable fee payment and retain the acknowledgement or transaction reference.
6. Download the admit card when released and follow the current test-day instructions.
7. After the result, monitor the relevant law school's shortlist, interaction, document-upload, merit-list, and admission instructions.
8. Accept an offer and complete the stated admission formalities within the deadline, if selected.

This sequence is a high-level guide, not a guarantee that every campus uses identical stages or that every step applies to every applicant. Follow the cycle-specific schedule shown on the official website.

3. General document checklist

The portal may request different files at registration, test-day verification, shortlisting, or final admission. The following checklist is a preparation aid. Items marked “confirm” are sensible documents to keep ready but are not represented here as a universal, officially mandated SLAT upload list.

Document / information	Why it may be needed	Status in this sample
Recent passport-size colour photograph	Profile and identity matching; follow the current photo specifications.	Check current portal instructions
Valid email address and mobile number	Communication and application account access.	Official registration page says valid and unique contact details must be maintained
Government-issued photo identity proof	Identity verification where requested, including test-day checks.	Official test-day instructions specify original valid photo ID; see current admit card
Class 10 marksheet / certificate	Academic history and date-of-birth evidence, where requested.	Preparation checklist; confirm portal requirement

Document / information	Why it may be needed	Status in this sample
Class 12 marksheet / certificate	Academic eligibility and marks verification.	Preparation checklist; confirm portal requirement
Category certificate, if claiming a category	Verification of eligibility for the selected category.	Official category policy requires relevant supporting documents
Disability certificate and UDID card, if claiming PwD	Verification of disability type and percentage.	Official PwD page specifically describes both documents
Payment acknowledgement	Evidence of completed registration / programme payment.	Keep for records; follow portal instructions
Admit card	Entry and test-day instructions.	Official test-day page identifies it as an important document

File preparation tips (illustrative): use clear, complete scans; ensure text, seal, certificate number, and issuing authority are readable; avoid cropped edges; use the file type and size accepted by the portal; and keep originals available for verification. These are general quality tips, not a published SLAT technical specification.

4. Category-specific supporting documents

Official SLAT reservation information requires applicants claiming applicable reserved categories to submit relevant supporting documents issued by a competent authority. Participation may remain provisional until documents are verified and authenticated. The precise document format, issuing authority, validity period, and submission stage must be checked against the current official instructions for the relevant campus and programme.

Category	Document guidance for this sample	Caution / verification
Scheduled Caste (SC)	Keep a valid SC caste certificate issued by the competent government authority. Upload the certificate when the portal requests category evidence.	The official policy confirms supporting documents are required, but the exact certificate format and issuing authority should be confirmed in the current notice.
Scheduled Tribe (ST)	Keep a valid ST tribe certificate issued by the competent government authority. Upload the certificate when the portal requests category evidence.	The official policy confirms supporting documents are required, but the exact certificate format and issuing authority should be confirmed in the current notice.
Kashmiri Migrant (KM)	Keep the applicable Kashmiri Migrant / eligible-family supporting certificate or document specified by the current admission notice.	Do not assume that one document or definition applies to every cycle. Confirm exact eligibility and proof with the official notice.
Persons with Disabilities (PwD)	The official PwD page says applicants must upload a disability certificate issued by a competent Government Medical Authority AND a Unique Disability ID (UDID) card to establish disability type and percentage.	Both documents are identified on the official page. Verification by the university's medical board is described. Confirm current rules and accommodation process.
Nagpur Domicile (SLS Nagpur)	Keep proof of Nagpur Urban residence for the required period and the educational records needed to establish the applicable educational criterion. The official page describes five years of residence and qualifying education criteria.	The published policy describes a 25% reservation within sanctioned intake for Nagpur domicile candidates at SLS Nagpur. Confirm current interpretation, acceptable residence proof, and exact upload list.
Children / Wards of Defence Personnel	Keep the supporting certificate or service-related evidence requested by the current SLAT / campus admission notice.	The official Defence page defines eligible Defence Personnel categories and states category-specific scope. Do not infer that this category applies to every campus or programme.

Category selection: The official reservation policy says that where an applicant is eligible under more than one specified category, the applicant must select one category at registration; the selected category is used for the admission process and other category benefits cannot later be claimed. Incorrect category information may lead to cancellation of candidature. Confirm the current cycle's exact rule before submission.

5. Category policy details published on the official site

The SLAT 2026 reservation page published the following figures: SC 15%, ST 7.5%, Differently Abled 3%, and Children / Wards of Defence Personnel 5% for SLS Pune. It described Kashmiri Migrants and Kashmiri Pandits / Kashmiri Hindu Families living in the Kashmir Valley (non-migrants) as two seats per programme over and above intake. The SLAT 2027 reservation page should be consulted for the applicable current-cycle rules; figures and campus applicability must not be assumed unchanged.

For Nagpur domicile, the official reservation page describes 25% of seats within sanctioned intake for eligible Nagpur-domiciled candidates at the SLS Nagpur off-campus centre. It describes a Nagpur Urban residence criterion of five continuous or intermittent years and an educational criterion involving specified university or school-board pathways. The exact proof documents should be checked with SLS Nagpur.

For PwD, the official page describes a disability certificate from a competent Government Medical Authority and a UDID card, with authenticity assessed by a medical board. It also describes compensatory time and scribe-related instructions; these arrangements are cycle-specific and must be verified from the current notice and admit-card instructions.

6. Document upload and verification

Applicants should enter details exactly as they appear on their official records. Before uploading, check that the document belongs to the applicant, is current where validity matters, and is legible. If a portal field does not match the applicant's situation, do not select an inaccurate option simply to proceed; raise a query through the official account or contact the relevant admissions office.

Category documents are not merely decorative attachments. The official policy states that category claims are subject to verification and authentication. A document may be reviewed during registration, personal interaction, or a later admission stage depending on the current instructions. Keep the original document safely available if the institution requests it.

The applicant should not upload another person's certificate as their own, alter a certificate, conceal a material detail, or make a category claim without meeting its criteria. Incorrect information can jeopardize candidature. Do not share sensitive identity or disability documents in public chatbot prompts or unsecured channels.

7. Common questions (RAG test set)

Q: What documents are required for every SLAT applicant?

A: The sources referenced in this sample do not establish one universal upload list for every applicant and campus. Prepare contact details, photograph, academic records, and valid photo ID, then follow the live portal and current admission notice for mandatory uploads.

Q: Is a UDID card required for a PwD applicant?

A: The official SLAT PwD page says a PwD candidate is required to upload both a disability certificate issued by a competent Government Medical Authority and a UDID card. Verify the current cycle's requirements before applying.

Q: What should an SC applicant upload?

A: The official reservation policy requires relevant supporting documents for category claims. This sample recommends keeping a valid SC certificate ready, but the exact certificate format and issuing authority must be confirmed from the current official instructions.

Q: What should an ST applicant upload?

A: The official reservation policy requires relevant supporting documents for category claims. Keep a valid ST certificate ready and confirm the accepted format, authority, and upload stage in the current notice.

Q: Does the KM category need a certificate?

A: Applicants claiming the Kashmiri Migrant category need supporting evidence specified by the current admission notice. The precise accepted document and eligibility definition are not fully detailed in this sample; verify with the official SLAT site.

Q: Is Nagpur domicile available at every Symbiosis Law School?

A: The cited official policy describes Nagpur domicile reservation specifically for SLS Nagpur's off-campus centre. Do not assume it applies to other campuses.

Q: What proof is needed for Nagpur domicile?

A: The official policy describes five years of Nagpur Urban residence plus a qualifying educational criterion. It does not, in the cited text, provide a complete exhaustive list of acceptable residence proofs; confirm this with SLS Nagpur.

Q: Does the Defence category apply to every campus?

A: The official Defence page describes category-specific programme applicability, including a scope tied to SLS Pune. Check the current campus and programme rules rather than assuming it applies universally.

Q: Can I claim SC and PwD benefits together?

A: The cited reservation policy says an eligible candidate must select one category from the specified categories at registration, and the selected category governs the admission process. Check the current official policy before making the selection.

Q: Can a third party guarantee admission?

A: No. The official SLAT website warns against agents or organizations promising guaranteed admission or charging for such assurances. Admission is based on the university's prescribed merit and selection process.

Q: Where should I ask about an unclear document requirement?

A: The official registration instructions direct candidates to log in to their SLAT ID and use 'Raise a Query' to generate a ticket. For campus-specific requirements, also use the contact details published by the relevant law school.

Q: Are the dates and reservation percentages in this PDF guaranteed for the next cycle?

A: No. This is a sample RAG document. Use the current official SLAT notification and relevant campus page for dates, percentages, programme scope, and certificate requirements.

8. Guidance for the chatbot using this document

A reliable chatbot should:

- Identify this file as sample material rather than an official notification.
- Answer with the distinction between explicitly published rules and preparation tips.
- Avoid inventing certificate formats, issuing authorities, deadlines, eligibility thresholds, or programme applicability that are not stated in the retrieved source.
- Mention campus and admission-cycle limits when relevant.
- If exact evidence is absent or documents conflict, say that the PDF does not specify the answer and direct the applicant to the current official SLAT notice or admissions helpdesk.
- Never promise admission or claim that uploading a document guarantees category approval.

9. Official reference sources

The following official SLAT website pages informed the source-derived statements in this sample. These pages may be updated; check them directly for current details.

1. SLAT 2027 Reservation Policy (SIU): <https://www.slat-test.org/reservation-policy-siu.php>
2. SLAT 2027 Persons with Disabilities: <https://www.slat-test.org/persons-with-disabilities.php>
3. SLAT 2027 Children / Wards of Defence Personnel: <https://www.slat-test.org/defence.php>
4. SLAT Registration Instructions: <https://www.slat-test.org/register.php>
5. SLAT 2027 Programme Eligibility: <https://www.slat-test.org/program-eligibility.php>
6. SLAT Test-Day Instructions (2026 reference): <https://www.slat-test.org/images/pdf/SLAT-2026-test-day.pdf>

End of sample document. For actual admissions, the current official SLAT bulletin, website, and campus instructions take precedence over this testing reference.
